

Castello's Cafe

Feb. 1st, 2008

To who it may concern:

My name is Mike Habib. I am the owner of Castello's Café located in downtown Halifax. I joined the Monexgroup by purchasing an ATM in 2006. I would first like to thank my local Monex representative for taking the time to come in and explain what Monex had to offer. He took the time to review our needs and requirements and presented his product and services in a professional way. After careful review I was convinced joining monex would be good for my business. Recently I decided to also have Monex become my POS service provider.

Since then I am pleased to say Monex has provided me with an excellent product. The highspeed service is exceptional and is a great advantage. Along with the savings I received I am very pleased to recommend their company. Monex and my local representative have demonstrated a high level of commitment that has been continuous to this day.

Regards,

A handwritten signature in blue ink that reads "Mike Habib". The signature is written in a cursive style with a large initial "M".
