

KINGSBORO TAXI LIMITED

March 8, 2007

To Whom It May Concern:

Kingsboro Taxi has chosen Monex as its supplier of Wireless Debit/Credit terminals in it's fleet of 200 vehicles. We have found them to be very flexible and accommodating in all aspects of this venture but particularly in regards to:

- Deployment of terminals
- Training of drivers on the functionality of the device
- Training and customization of the online reporting tool
- Technical support

We feel that this has been a "win-win" solution for all parties and look forward to continues success in regards to this partnership.

Yours truly,

President
