

NORTH STAR TAXI SERVICES INC.

Date: Jan 17, 2008

To whom it may concern:

North Star Taxi operating in the City of Toronto has been a satisfied customer of Monex for over 3 years. They are the exclusive supplier of wireless point of sale ("POS") terminals to our entire fleet. After researching a number of other POS suppliers, we found that Monex offered the best solution for us in terms of reliability, EMV" (Europay MasterCard VISA) chip standard compliant hardware, low cost, and customer service. They were accommodating in the deployment and training of drivers.

Some of the advantages of their service are their 24/7 bilingual technical support which ensures prompt service and their free online reporting database.

Regards

President
