Re: MONEX Testimonial Letter

To whom it may concern:

**Pizzaville – Bolton** has been a satisfied customer of MONEX for 12 months. They are the exclusive supplier of point of sale (“POS”) terminals for our operation. We selected MONEX after an extensive search, based on low cost, high reliability, latest technology and customer service and found them in all aspects to be the best choice for us.

MONEX has proven to be a reliable, professional and accommodating provider of service since day one of this venture. They offered a complete solution for our needs. They also provide 24/7 bilingual technical support which ensures prompt service and provide a free-of-charge online reporting tool to facilitate our operations control.

Regards
